## Quick-easy install of REX into Schlage® L series

No need to stock electrified locks with built in REX switch

Unit takes less than 5 seconds to install!

**Rotate and snap into place!**

### FEATURES

- ◆ SPDT micro-miniature lever action switch
- ◆ Switch is rated for 500,000 cycles.
- ◆ Switch electrical rating is 1 amp, 250 volt AC/DC
- ◆ Color coded leads for switch wires. Red, Black, White
- ◆ Housing has built in strain relief to protect wires.
- ◆ Does not affect the UL listing of the lock or latch
- ◆ Plastic housing is made from UL 94 V-O plastic.
- ◆ Allows for customers to cut down on inventory. You only need to stock electrified lock bodies and apply the REX as needed.
- ◆ Inexpensive. Available bulk packaged or individually carded with a hook hanger hole.
- ◆ Simple, four step instructions are printed on the packaging..
- ◆ Extremely low profile on lock body. No interference with insertion of the body into the mortise cutout.

Patent Pending

**Special Bulk Pricing for Wholesale Houses!**

- ◆ Beta tested to over 200,000 cycles.
- ◆ No tools needed
- ◆ Durable shock resistant ABS UL 94 V-O rated plastic
- ◆ Wires have heat shrink for lead protection
- ◆ Strain relief is built into the housing
- ◆ Fast, efficient, money saving design!
- ◆ No need to send in locks to modifiers for REX addition.
- ◆ Easy to follow four step, line drawn instructions.
- ◆ Add RediRex anywhere. In shop, at the jobsite. Versatile!
- ◆ Made for use in L series bodies less than 8 years old.
